

STEVE HARWARD

CEO & Visionary

"What is the impact the company can offer, what education is the current marketplace starving for, and how can this be a life-changing opportunity for the current employees and partners that are here."

Steve Harward, CEO and Visionary, founded Prime Corporate Services in 2012 after recognizing there wasn't anything in the marketplace that specialized in personal asset protection and tax minimization strategies for entrepreneurs. He started the company to chase his own financial dreams and make a true impact on small business owners who don't know what it takes to be successful. Eleven years later, Steve has grown an 8-figure a year business, enrolling thousands of customers per month with nearly 200 employees. Under his leadership, PRIME has helped more than 150,000 entrepreneurs structure their businesses, save thousands on taxes, and develop millions in business credit.

Steve is an expert in cultivating new relationships and oversees all partner management, while also providing a vision into the future of the business.

Steve's "why" falls back on his two young children, Nolan and Zion, as he continues to chase his dreams and prove to them that they can accomplish anything they put their mind to. As PCS sets new milestones and goals, his focus remains on creating an impact for customers and advancement opportunities for the company and his team.
